

CONFLICT MINERAL POLICY

Alpha Circuit Corporation and Alpha Flex Systems, as a leading fabricator of BARE printed circuit boards, continues to recognize the need to support a sustainable electronics industry which requires the responsible use of natural resources as an essential driver of economic growth.

THEREFORE, pursuant to section 1502 of the Dodd-Frank Wall Street Reform Act we recognize the concerns regarding the use of Tin (Cassiterite), Tungsten (Wolframite), Tantalum (Columbite-Tantalite-Coltan) and gold as supplied from the Democratic Republic of the Congo (DRC), Central Africa Republic, South Sudan, Zambia/ Angola, The Republic of the Congo/Tanzania and Burundi. We confirm that we only purchase residues or concentrates of said minerals from known suppliers that use smelters that are in conflict free compliance as recorded in the EICC-GeSI CFS list and referenced by their specific smelter identification number.
